CHARCOAL

Charcoal Cooking is a unique BBQ experience that will allow you to explore authentic smoky flavours that can enhance the natural taste of your meat and vegetables. More heat, hotter grill and flavours that only Charcoal Cooking can offer.

This recipe book will begin your journey of Charcoal Cooking with a range of recipes using Beef, Lamb, Chicken, Pork & Vegetables.

LUMP CHARCOAL

Made from natural Tamarind wood. No chemicals or fillers added.

NATURAL BBQ FUEL

Made from coconut shell that is carbonised then compressed with a vegetable binder.

SMOKING CHIPS

By adding Samba Smoking Chips to your barbecue cooking, a delicious range of flavours can be imparted to meat, fish or vegetables. Wood Smoke creates a truly unique barbecue flavour and an essence that only smoking can offer.

Simply soak the wood chips in liquid of your choice e.g water or liquor. Soak for up to an hour, draining when you are ready to smoke.

Smoking on a Charcoal BBQ

Simply toss the chips onto the coals - under the food if direct grilling or to the side for indirect grilling (see step by step guide on page 4). For the indirect grilling (which takes longer as the temperature is lower) it may be necessary to add a cup of wood chips every hour.

Smoking on a Gas BBQ

For best results use a Samba BBQ Smoker Box. Simply add the soaked chips, close the box lid and place on the grill. Keep BBQ hood down to trap in the aromas.

THE PERFECT STEAK

INGREDIENTS

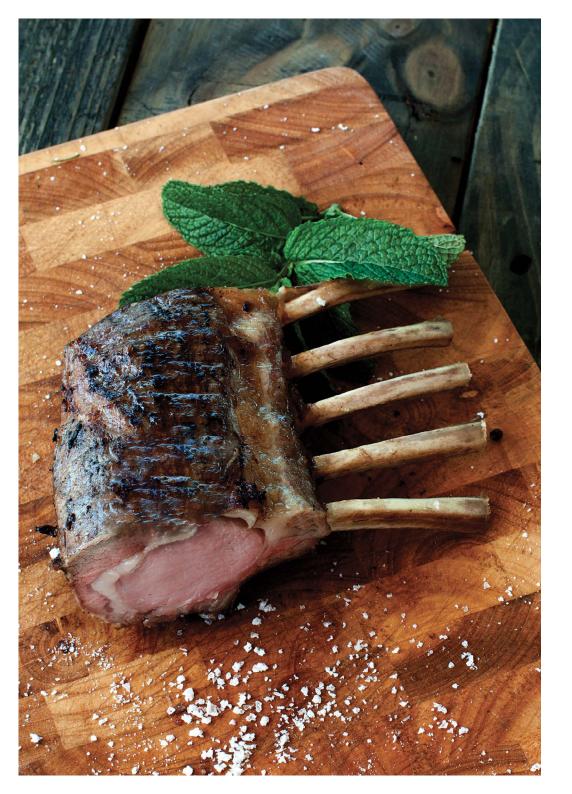

1 Steak

Salt flakes

METHOD

Salt your steak an hour or more before you grill. Overnight is best. Set up your grill for indirect grilling. Place steaks directly over charcoal and sear for about 2 minutes each side or until you have good colouring on each side. Remove steak when the interior reaches 58°c for rare, 62°c for medium and 68°c for well done. If your steak has not yet reached the desired temperature after searing, place steak on the indirect side of your grill until it reaches temperature. Rest steak uncovered for 10 minutes.

WHEN BUYING STEAK, BUY THE BEST QUALITY YOU CAN AFFORD. GET IT THICK CUT IF POSSIBLE.

6 lamb loin chops

½ teaspoon salt flakes

Place meat on the hot side with the lid up. Turn frequently until chops reach 55°c in the center. Place chops on indirect side to hold chops as they finish. Remove when interior reaches 60°c to 65°c.

PORK SPARE RIBS

INGREDIENTS

Pork Spare Ribs

Vegetable Oil

Sea salt Flakes

BBQ Rub Recipe (see page 7)

METHOD

Remove the membrane from the under side of the ribs. Insert a knife under the membrane, work a corner loose, grip it with a paper towel, and peel it off. Trim the excess fat from both sides. Salt both sides of the ribs 1 to 2 hours before you cook. Use about 1 teaspoon per kg of meat. Coat the ribs with a thin layer of vegetable oil. Sprinkle with Pork Rub (see page 7) coating all surfaces. Rub it in. You can apply the rub the night before. This is optional. Set up your cooker for indirect grilling.

Preheat your BBQ to about 110-120°c. Maintain this temperature throughout. Cooking at this temperature will allow the ribs to cook low and slow. Add a handful of soaked Samba Pork and Poultry smoking chips. Put the ribs on the indirect side of the grill, meat side up. When the smoke dies down after 20 to 30 minutes, add another handful of Samba Pork and Poultry smoking chips. Allow 4-5 hours for ribs to cook. You may need to add more coals after 2-3 hours to maintain temperature. Then pick up the slab with tongs and bend them gently. If the surface cracks, it is ready. If not return to grill for another 30 minutes.

SLOW PORK

INGREDIENTS

1 pork shoulder

3 tablespoons of vegetable oil

1/3 cup Pork Rub (see page 7)

½ teaspoon salt Flakes

2 cups wood for smoke

1 cup of BBQ sauce (see page 5)

METHOD

Trim most of the fat from the meat. If yours is not already tied, tie it with cotton string. Rinse and thoroughly dry the meat. Salt it 12 to 24 hours in advance. Just before cooking, oil it with vegetable oil, coating all surfaces. Cover generously with the rub. Set your BBQ up for indirect grilling and heat your BBQ to about 120°c. Put the meat on above the pan. Add a handful of Samba Pork and Poultry smoking chips to the coals. Check your BBQ every hour to make sure the heat is maintained around 120°c. If it goes up to 150°c, this is OK but try to keep it down under 130°c. When the interior reaches about 75°c, the exterior should be turning brown. If there is a bone, use a glove or paper towel to protect your fingers and wiggle the bone. If it turns easily and comes out of the meat, it is done. If there is no bone, insert a fork and try to rotate it 90 degrees. If it turns easily, its done. If it's not done, close the lid and cook for another 30 minutes. If the internal temp hits 90°c but the meat is still not tender, cook until it reaches about 95°c. If you can't reach the temp on your BBQ, wrap the meat in heavy duty foil and move it into a 120°c indoor oven. When it has reached the correct temperature, shred the pork. Serve on its own or with BBQ sauce.

ROAST PORK

INGREDIENTS

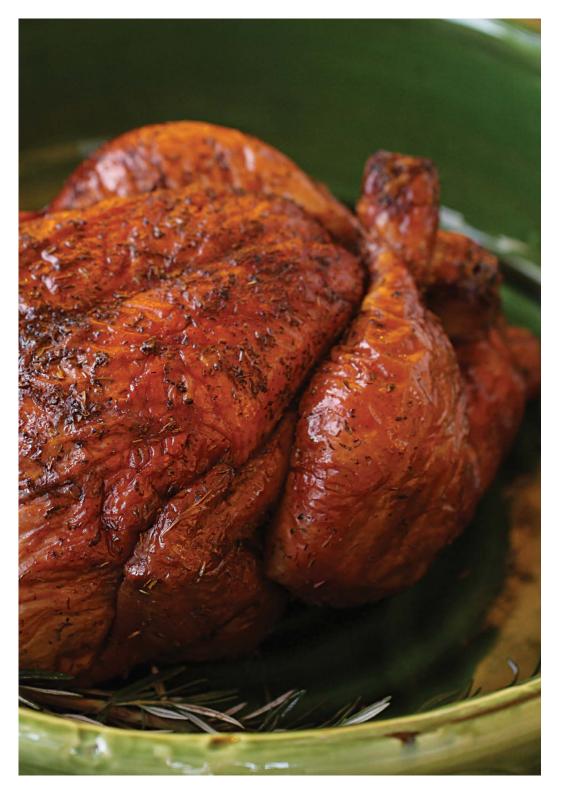

1 rolled & tied pork loin skin on

Olive oil

Salt Flakes

METHOD

Set up grill for indirect grilling and score skin if not done already. Dry skin and lightly coat with oil then salt liberally rubbing into score marks. Place pork skin side down on BBQ grate near charcoal but not directly over top. Turn pork every 10-20 seconds to prevent skin burning. After 4-5 minutes, skin should be crackled. Transfer to other side of the BBQ, skin side up and cook at 150°c until internal temperature reaches 71°c.

BARBECUED CHICKEN

INGREDIENTS

1 Chicken

1 teaspoon salt flakes

½ teaspoon black pepper

2 teaspoon smoked paprika

2 teaspoon dried thyme

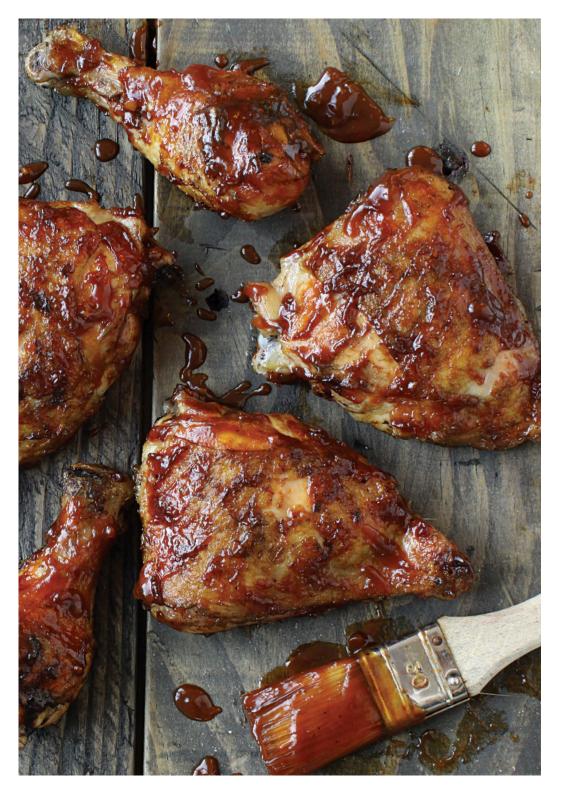

2 teaspoon dried oregano

1/4 teaspoon chilli powder

2 handfuls of Samba Pork & Poultry Smoking Chips

METHOD

Rinse the chicken inside and out and pat dry with paper towels. Season the inside of the chicken with ¼ tsp of salt & ¼ tsp of black pepper. Mix together the remaining ¾ tsp salt & ¼ tsp black pepper along with the paprika, thyme, oregano & chilli. Using your fingers, start at the tail cavity and carefully loosen the skin of the chicken over the breast and thighs. Insert about half of the spice mixture under the skin and rub it on as evenly as possible. Rub the remaining spice mixture over the skin of the chicken. Let the chicken stand at room temperature for 30 mins. Prepare your grill for indirect grilling. Place a handful of Samba Pork & Poultry wood chips on the coals. Place the chicken, breast side up, on the indirect side over the drip pan. Grill at 160°c for about 2 hours or until the juices run clear. To test for doneness, insert an instant-read thermometer into the thickest part of the thigh, away from the bone; it should register 75°c. The temperature will rise another 4° to 8°c while the chicken is resting. Transfer the chicken to a carving board, cover loosely with foil and let rest for 10 mins before carving.

BBQ CHICKEN PIECES

INGREDIENTS

Chicken pieces skin-on

Salt flakes

Vegetable oil

1 cup barbecue sauce

(see page 5)

METHOD

Coat the chicken pieces with vegetable oil and sprinkle salt over them on all sides. Prepare your grill for indirect grilling. Place the chicken pieces (skin side down) on the hottest side of the grill to crisp the skin. Grill for 5-10 minutes, taking care you do not burn the chicken. Once the skin is crispy, move the chicken pieces to the cooler side of the grill. Cover the grill and cook undisturbed for 20-30 minutes. Baste the chicken pieces with your favourite BBQ sauce. Cover the grill again and allow to cook for another 15-20 minutes. Repeat, turning the chicken pieces over, basting them with sauce, covering, and cooking for another 10-30 minutes.

The chicken is done when the internal temperature of the chicken pieces is 74°c for breasts and 75°c for thighs, or if you insert the tip of a knife into the middle of the thickest piece and the juices run clear. If the chicken isn't done, turn the pieces over and continue to cook at a low temperature.

Baste with more BBQ sauce and serve.

WHOLE SNAPPER

INGREDIENTS

1 Fresh Snapper

Salt & freshly ground black pepper

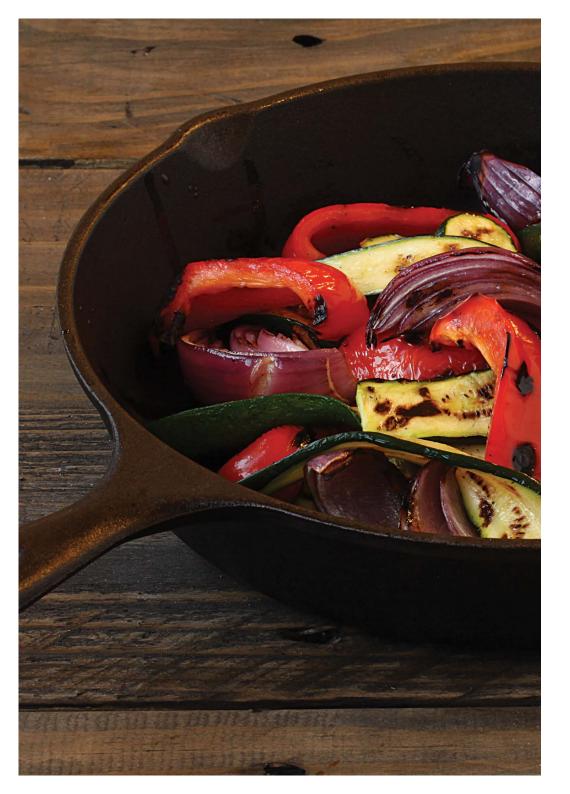

Lemon slices, peeled garlic cloves, peeled ginger slices, fresh oregano sprigs, fresh parsley sprigs, for stuffing Olive oil

Parsley, for garnish

Lemon wedges, for serving

METHOD

Thoroughly pat fish dry with paper towels. Season inside and out with salt and pepper. Stuff fish cavities with the lemon, garlic, ginger, and herbs. Rub fish all over with olive oil. Set fish over hot side of grill and cook until under side is browned, about 5 minutes. Using a carving fork, insert tines between grill grate and under fish. Carefully attempt to lift fish from below; if it resists, allow to cook for 1 more minute and try again. When fish lifts easily from grill, turn fish onto other side and cook until a thermometer inserted in the thickest part registers 60°c (about 5 minutes longer). If skin starts to burn before fish is cooked through, transfer fish to other side of grill to finish cooking. Rest for 5 minutes.

BBQ VEGES

INGREDIENTS

1 Red pepper 1 Onion

1 Yellow pepper Sea salt

1 Medium zucchini Ground black pepper

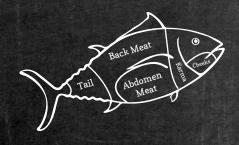

1 Egg plant Extra virgin olive oil

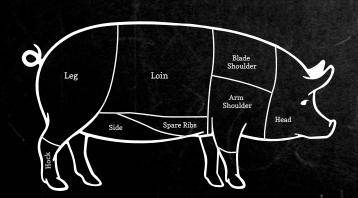

METHOD

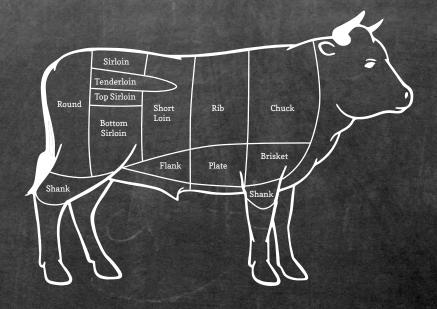

Wash your vegetables. Prepare your BBQ for direct grilling. Cut the onion into quarters, place on grill and turn often till lightly charred and soft. Remove and place on a paper towel. Put the whole peppers on to the grill to get black marks on all sides. While still hot, put them in a bowl, cover with plastic wrap and leave to cool. Slice the zucchini 5mm thick, and grill for about a minute on each side, or until lightly charred. You don't want them too black or too raw. Remove and place on a paper towel, don't sit zucchini on top of each other as they will get too soft. Cut the eggplant into slices 10mm thick. Grill the slices, turning to get nice grill marks. Remove and place on paper towel. Peel the peppers and cut into strips. Put all the grilled vegetables into a big bowl. Add 2 tablespoons of extra virgin olive oil and salt/pepper to taste and toss.
